

Cutting layout

The fabric is folded selvedge to selvedge, so the usable width is HALF the bolt. A piece marked "ON FOLD" sits on that fold.

PURCHASE SEPARATELY: lightweight fusible interfacing for the two front facings, 2 x 60 mm wide x 308 mm long (sewing guide section 3b).
Not included in cloth yardage.

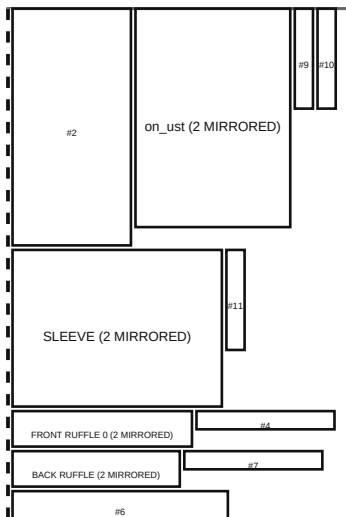

115 cm wide fabric - layout uses 1.72 m

scale 1:25 . dashed line on the left = the fold . usable width 575 mm

Yardage covers these placements only; shrinkage and matching prints need extra cloth. Keep each grainline parallel to the selvedge. Cut single pieces through the top layer only.
